SUBJECT: Pricing for clothing

Attached are the pricing of various clothing sizes in 12, 20 and 40 Cal to determine kit prices.

A 12 or 20 Cal kit contains a hardhat/shield, hood bag, balaclava hood, jacket, pants or bib overalls (20 Cal) or coverall and carry bag.

A 40 Cal kit contains a vented hood with Milwaukee M12 battery receiver in either a fixed (V5) or flip shield (V5F) or a AA battery pack in a fixed shield (V12) or a flip shield (M12F). All vented hoods are equipped with the arc flash sensor and task light. The V5 has the Milwaukee M12 battery receiver, and charger. The kit also has a hood bag, jacket, bib overalls or coverall and carry bag.

Since many of the 40 Cal users have access to the Milwaukee M12 battery pack at a cheaper rate than I can supply, the price of the battery is additional and must be added to the hood price (sample kit listed below).

Glove kits are not supplied with the kit and are additional. They are Class 0 (1000 volt), Class 1 (7500 volt) or Class 2 (17,000 volt). Class 0 is available in Black, Red or Yellow. Class 1 and 2 are available in Black. The price per glove kit is:

Class 0 (all sizes) - \$113.40

Class 1 (all sizes) - \$166.50

Class 2 (all sizes) - \$194.40

Any questions, please email me at vmiller@millersafetyltd.com or call me at (703) 367-0404.
